Thornbury Harbour Newsletter

Happy 0 days in the 14 day forecast below freezing!

WATER: The water is on from the Fish Cleaning Station to H dock. Please make sure the handles on the yard hydrants (water hydrants) are completely closed (down) when you are done using the water. Water is planned to be turned on at the pier Monday.

LAUNCH: The harbour is looking more and more ready for boats every day. Ramps went up on F, G, H and I docks this week and we plan to put the rest up next week. A contractor is scheduled for next week to re-connect the hydro to all docks. Everything is looking good for Launch day, May 14.

COLD WATER AWARENESS: With the frigid water temperatures I thought it would be a good time to share some information from the Canadian Safe Boating Council regarding cold water awareness. The following link will provide you with resources about the 1-10-1 principal, hypothermia, prevention, etc. <http://csbc.ca/en/cold-water-awareness>

WEATHER STATION: We have a new weather station! Kindly donated by the Grey Sauble Conservation Authority. The link below will take you directly to the weather station dashboard where you can find current and historical weather data [Weather Station Link](#)

HARBOUR HOURS

8AM TO 4PM Monday – Friday until May 12

8AM TO 4PM 7 Days per week May 13 until June 29
