INSTALLER FALSE DISPATCH PREVENTION PROGRAM CHECKLIST

YES	NO	(Check One)
		If a duress feature was installed, I thoroughly explained it and I did not use "1+" keyboard coding.
		I CONFIRM THAT THE CONTROL PANEL HAS BEEN PROGRAMMED SO THAT:
		It will not transmit more than ___ alarm signals from the same zone until manually restored at the premises. (Recommend no more than two).
		It will delay at least 15 seconds before initiating dialing on intrusion alarm signals.
		It has adequate delay time on entry/exit doors (delay of 45 seconds or more is recommended).
		A cancel code can be entered by the customer to cancel accidental alarms.
		I verified that police and fire panic buttons cause a siren or speaker to sound and that medical panic buttons cause an audible signal.
		I verified that the keypad(s) emit sufficient sound to inform occupants when an entry/exit door sensor has been triggered.
		I installed and tested standby/backup power.
		I reviewed the "Customer False Alarm Prevention Checklist" with the customer.
		I determined whether the customer had special telephone features, such as call waiting, and took appropriate steps to allow proper control panel dialing and monitoring center verification.
		I made sure the control panel was properly grounded.
		I made sure that all door and window contacts were properly selected, installed and tested. I considered loose fitting doors and windows, whether wide gap contacts were needed, and steel doors and windows. I followed the manufacturer's installation instructions.
		I made sure all glass breakage sensors were properly selected, installed and tested, I gave consideration to pets, on site noises and the general environment. I followed the manufacturer's installation instructions.
		All motion type detectors were properly selected, properly installed and tested. I gave consideration to pets, sunlight, other heat sources, and harsh environments. I followed the manufacturer's installation instructions.
		Please explain if you answered "No" to any of the above items:

CUSTOMER FALSE DISPATCH PREVENTION CHECKLIST

YES NO (Check One)

		I have been trained in the proper operation of the system.
		I have been given a summary operating sheet.
		I have been given the security system operating manual.
		I know how to cancel an accidental alarm activation.
		I have the cancellation code.
		I know how to turn off motion detectors while leaving other sensors on.
		I know how to test the system, including the communication link with the monitoring center.
		I understand the length of the delay time on designated entry/exit doors and I believe this will provide sufficient time to get in and out of the premises. My entry time is _____. My exit time is _____.
		I have the alarm company phone number to request repair service or to ask questions about the alarm system.
		I have been offered the option of a training/no dispatch period.
		I understand that indoors pets can cause false alarms and I will contact alarm company to adjust the system if I acquire any additional indoor pets.
		I know where the main control panel and transformer are located.
		I have received an alarm sheet which describes how the alarm company will communicate with me in the event of various alarm signals.
		I understand the importance of keeping my emergency contact information updated and I know how to do this.
		I understand the importance of immediately advising the alarm company if my phone number changes (including area code changes).
		I understand the importance of any other changes to my telephone service such as call waiting or a fax line or high speed internet connection.
		I have been made aware of the alarm by-law, if any, that governs the operation of my alarm system and I will comply with applicable requirements (permits, fees, etc.).
		I will advise the alarm company if I do any remodelling (such as extensive painting, moving walls, doors or windows).
		I understand that certain building defects (such as loose fitting doors or windows, rodents, inadequate power, and roof leaks) can cause false alarms. I will correct these defects as I become aware of them.
		The alarm company has given me written false alarm prevention techniques to help me prevent false alarms.
		I understand it is my responsibility to prevent false alarms and I understand it is critical and my responsibility to assure that all users of the system (such as residents, employees, guests, cleaning people, and repair people) are trained on the proper use of the system.
