

Grey Sauble Conservation Strategic Plan Open House

How do you think we can better conserve, restore, develop or manage the natural resources in our watersheds?

Before updating our Strategic Plan, Grey Sauble Conservation and our member municipalities would like to hear from you.

Please come out to one of the sessions. We welcome your ideas and your thoughts on our strengths, weakness, opportunities and threats. You can also learn more about what Grey Sauble Conservation does today, and staff will be on hand to answer your questions.
