Notice of Study – Public Invitation

Community of Clarksburg Town of The Blue Mountains Master Plan Class Environmental Assessment

The Town of The Blue Mountains has initiated a Master Plan Class Environmental Assessment (Class EA) to investigate opportunities to improve the water and wastewater services to all properties in the Clarksburg Service Area.

Map of the Clarksburg Servicing Master Plan Class EA Study Area

How Will This Affect Me?

The study will assess the quality of drinking water and the effectiveness of wastewater treatment in the community, analyze the current well and septic system inventories, and identify a long-term solution to the provision of water and wastewater servicing.

Public and agency consultation is a key element of the process, and input will be sought throughout the study to identify options to address the study findings. Based on this input, alternative strategies will be evaluated to identify optimal community, environmental and economic opportunities.

How Do I Get More Information?

Door-to-door visits will be conducted in the fall of 2017. A mailing list for notification of study status and opportunities for public input is being compiled. If you wish to add your contact information to the study mailing list, or if you have any questions regarding the study, please visit our website at www.thebluemountains.ca or contact one of the people listed below.

Public Information Centres are planned for the evening of Thursday September 14th (5pm-8pm), and the morning of Saturday September 16th, 2017 (10am-12noon) at the Town of The Blue Mountains Council Chambers (32 Mill Street). Details will also be mailed to service area residents, and posted on the Town's website.

A Community Liaison Committee will be finalized to assist in facilitating public consultation activities during this study. If you are interested in being part of the committee, watch for details to be posted on the Town of The Blue Mountains website at www.thebluemountains.ca, or contact those listed below.
