**Subject:** motion for voluntary ban of single use plastics

Dear Members of Council,

I would like to add my voice to those in support of a voluntary ban of single use plastics in The Town of The Blue Mountains. We can look to the town of Bayfield as a good example of a community that has successfully eliminated single use plastics, the first in North America to be recognized for doing so. Passing a motion for a voluntary ban would be a good first step in getting this ball rolling. There is a good deal of work to be done in this area, and time is running out.

Please vote to pass this motion.

Thank you,  
Cathy Innes
