Subject: Federal government action re plastics

Co-Chair Ken and I met yesterday to discuss how we will work together. We appreciate the enthusiasm to move forward with an exploration of the broad funding opportunities. However, given the resources and time constraints we face, it's best to wait until we have a better determination of the Sustainability Committee's priorities. We also need to understand the Federal Government's recently announced plans to ban single-use plastics by 2021. We feel our Committee should hold back on any initiatives regarding single use plastics until we have a better understanding of the Federal Government's initiatives and direction.

Rob Potter
