To Whom it May Concern:

We are opposed to Heritage Park being considered as a site for attainable housing or any other use and are disappointed that the Town of Blue Mountains would even consider such a conversion.

We purchased [REDACTED] approximately four years ago in large part because of its proximity to Heritage Park. We have twin boys who are now 13 and who are always making use of the park. When their friends visit, they often all head over to the park to have fun and play various sports. The park is great because it so convenient and gets them out from playing video games or watching TV.

Like our neighbours, we strongly disagree with the assertion that the park is underutilized. But even if it was, the Town should be encouraging its use, not converting it for further development.

We appeal to the Committee as parents and leaders to do the right thing for our community.

Please accept this letter as our official opposition.

Your sincerely,

Shea and Gillian Small
