To Whom it May Concern and Councillor Rob Sampson:

We have been owners of [REDACTED] since 2004 and have a great view of the Heritage Park and people constantly enjoying both the playground and the open space. We are weekend/holiday residents but are children and grandchildren always enjoy going to this park when we are here.

It seems absurd to us that the Town would seriously consider taking the only public green space/park in the area and converting it to attainable housing when there are so many other options available to the town whether currently owned undeveloped space or undeveloped land that can be purchased for this use.

Like our neighbours, we strongly disagree with the assertion that the park is underutilized.

We appeal to the sensibility of the Committee to remove Heritage Park from the list of locations under consideration for Attainable Housing.

Please accept this letter as our official opposition.

Regards

Alessandra Boudreau and Michael Cannata
