• **Market Outlook**
  TD Wealth Management presented the annual report respecting the Authority’s Wealth Management Portfolio for 2020.

• **Business Operations During Pandemic**
  The Board of Directors (BOD) was briefed on the operations of the various departments with most employees working remotely and business proceeding as usual, as much as possible. GSCA is working with Public Health towards re-opening properties.

• **Watershed Monitoring**
  No water sampling is currently being undertaken due to staff safety issues and MECP labs not currently accepting samples.

• **Forestry**
  Some activities did not meet Provincial criteria of essential business and have been substantially reduced. The Arbour Day Tree Sale was cancelled, and pre-ordered tree sales were not able to proceed, although Spring tree planting is underway.

• **Financial Report**
  Revenue is down due to the closing of Authority properties and reduction in some service areas.

• **Water Management (Dams)**
  All dams have been installed in time to capture sufficient water prior to dry summer weather.

• **Re-opening Authority Lands**
  Properties are slowly being re-opened for public access after being inspected for safety and maintenance. The specific properties are listed on the GSCA website.

• **Drainage Arrangement**
  The Board of Directors approved the negotiation of a 5-year lease agreement over a small portion of GSCA lands located in the Peasemarsh Nature Reserve for the purposes of drainage.

• **LiDAR**
  The Light Detection and Ranging (LiDAR) project is proceeding with a Memorandum of Understanding amongst the parties.

• **Owen Sound Climate Change Adaptation Plan**
  This plan has been put on hold at this time due to COVID-19 concerns.
