Subject: RE: Notice- Attainable Housing Gateway Site Planning Process Update

Well said. Time to move forward and get this project done. The majority of the electorate voted for members of this Council to make the difficult decisions regarding appropriate timing, money, location, size and character.

I personally think that the decision to purchase of the King Street site was a good one, for various reasons. The planning for a 5 storey building could be considered a "one-off" to provide for an economically viable public project that does not provide any financial/profitable benefits that would/could be gained by similar projects in the private sector.

All the best.

Michael Seguin

Former Councillor, The Blue Mountains
