Hello, I have lived at Sleepyhollow Road for the past 30 years. Over the past year in particular I have noted a major increase in the speed of traffic using this roadway. With the increasing popularity of the area overall and the added traffic as a consequence, there is significant risk to the residents in this area based on the driving behaviour I have witnessed especially over this past spring and summer. I, along with other members of the community have observed all types of vehicles driving well in excess of the speed limit…excess in fact that is almost unbelievable and clearly reckless. I also witnessed an actual accident which was not reported at the intersection of Sleepyhollow and Kitzbuhel and a very near hit on a family from a speeding vehicle that left my wife and I ‘breathless’. If nothing is done to get control of this situation, something tragic and entirely preventable is going to happen….I am pleading with the Township to do something to rectify this threat to all of the residents of this area. This is the second time I have brought this to the attention of the administration….early this spring your team reacted immediately to increase police presence and it had little impact. I would be hugely grateful if you could respond in the timely manner you have always exhibited to matters like this and advise me on what steps can and will be taken to begin rectifying this situation. Many thanks for your critical assistance in this situation. Craig
