B. Staff Reports and Deputations

B.1 Deputations, if any

B.1.1 Bryan Plumstead, Manager of Tourism, Grey County
Re: Grey County Cycling and Trails Master Plan

Bryan Plumstead, Manager of Tourism for Grey County provided a presentation on the Grey County Cycling and Trails Master Plan. Bryan updated the Committee noted the Grey County Transportation Master Plan identifies active transportation as a priority and noted the Cycling and Trails Master Plan provides a long-range blueprint for municipalities and Grey County moving forward with respect to cycling. Bryan reviewed the phasing of the Master Plan and confirmed the consultation work undertaken. Bryan noted the connectivity of cycling routes is key, as well as consideration for municipal roads that could be added to the cycling network. Bryan noted cycling enhances tourism and economic development in a community and confirmed the draft Cycling and Trails Master Plan document proposes 836 kilometers of cycling infrastructure, some of which has been budgeted for, and some of which has not. Bryan confirmed the cycling network philosophy and proposed implementation.

Committee member John Ardiel noted the draft Cycling and Trails Master Plan needs to consider the original purpose of Grey County roads, being to move volumes of traffic in an efficient manner and commented that education for cyclists regarding road safety and responsibility should be included. Bryan Plumstead confirmed he would provide these concerns to County staff and noted the County, in conjunction with the Town’s Director of Community Services Ryan Gibbons, is working on cycling brochures that remind cyclists of their responsibilities related to road rules.

Mayor Soever left the meeting at 1:29 p.m.

Committee member Andrew Siegwart noted most cyclists use the roadways in a responsible and safe manner.
John White noted active transportation will be a focus in the Town’s Transportation Master Plan and enquired whether the County of Grey has considered a separate cycle lane/road if appropriate. Bryan confirmed that due to delays related to COVID-19, County staff have recently started working again on the Cycling and Trails Master Plan, but separate cycle lanes have not yet been considered. John White noted that any considerations for street/curb design that arise from the Cycling and Trails Master Plan should be communicated to the Town when known.

John Ardiel commented that the speed reduction on Highway 26 in Craigleith will increase vehicular traffic over the escarpment. John further noted Grey Roads 13, 40, and 2 should not be initially considered for cycling infrastructure due to the high volume of traffic utilizing the roads.

John White noted the County may consider using space in their annually produced Grey County map to provide an educational component for cyclists. John further noted the area has seen significant investment by the apple industry which will increase agricultural traffic volumes on area roads.

The Committee thanked Bryan for his presentation.

B.2 Public Comment Period (each speaker is allotted three minutes)

NOTE: In accordance with the Town Procedural By-law 2019-56 fifteen minutes is allotted at the Meeting to receive public comments regarding Transportation Committee matters included on the Agenda. The speaker shall provide their name and address, and shall address their comments to the Chair. Comments shall not refer to personnel, litigation or potential litigation matters, or matters that are a follow-up to a Public Meeting.

Committee meetings are taking place virtually to assist with social distancing with respect to COVID-19. Comments received from the public that have not been included on the Agenda will be read at the meeting by the Executive Assistant.
