

**Letter from Mr. Gosselin Re: Representation from those eligible for tenancy and support of Cooperative Development Model, dated September 6, 2020**

It was a pleasure to learn that Councillor Sampson has supported that the Corporation Board include representatives from those who may be eligible for tenancy.

The principle is: nothing about us, without us.

Those who may be eligible may also have concerns and suggestions that could be valuable to the other Board members.

Let me take this moment to once again suggest that a co-operative model for the development be considered.

In the meantime, Councillor Sampson's proposal is worth serious consideration.

Sincerely, Roland Gosselin
