Dear Corrina,

I have reviewed the proposed Comprehensive Zoning Bylaw and would like to request that the Hazard Zone h1 be removed from my property. The wetland that is referred to is a man made pond I created in 2006 and at that time I have correspondence with John Bittorf from Grey Sauble that no permit was required from Grey Sauble to build the pond as it is not part of the Grey Sauble reg.

I would appreciate receiving a response from the Town of The Blue Mountains acknowledging receipt of this letter and consideration for the information within.

Thanks in advance

Kevin Woolham
